### PREMIUM TACKY TAPE BUTYL TAPE SEALANT ROLLS

Tacky Tape® is a 100% solid, asbestos-free butyl tape sealant that is a highly rubbery, tacky, reinforced compound designed for sealing metal lap joints in the metal building industry. It is easy to apply and compress during installation. It exhibits excellent application and performance characteristics over a wide temperature range and will not become brittle, crack or flow during service. It is available in various sizes supplied in ready-to-use rolls and pre-cut endlap pads for standing seam roof (SSR) applications. It is also available in double and triple bead rolls and endlap pads.

Tacky Tape® is designed to seal and prevent the entry of dust, air and moisture and assure a weather tight seal in metal building details. Metal rib and end joints, Standing seam roof endlaps and more.
